APPLICATIONS

- Beverages
- Confectionery
- Flavour systems
- Oral care

AVAILABLE FORMS

- Powder, 80 mesh
- Granular on request
- Liquid on request

- Chewing gum

WHAT TO CONFIRM BEFORE ORDERING

- NDC is used at parts-per-million levels; a micro-dose premix is usually necessary.
- The long linger is useful in gum and oral care and a problem in a clean-finish beverage.
- Test the solution at the final pH; solubility, not sweetness, is often the constraint.

> **Indicative document.** This sheet describes the grade we can quote; it is not a batch COA and does not confirm a result for a specific lot. Final specification, contaminant limits and documentation are agreed in writing before the order. The identity, assay basis, profile and method are release parameters, not marketing descriptions.
